FREDERICK A. WATSON PASSED AWAY IN CHICAGO YESTERDAY

PROMINENT DIXON MAN SUCCEMBED TO HEART TROUBLE AFTER LONG STRUGGLE—BODY TO BE BROUGHT TO DIXON.

FUNERAL WILL BE HELD HERE ON MONDAY AFTERNOON

Was Born in Dixon in '54—Started to Work When Young Boy and Raised Himself to Prominence by His Own Efforts—Was Well Known in Shoe Manufacturing World.

F. A. Watson died last evening at 5:20 o'clock at his home at 5250, South Michigan Avenue, Chicago, of heart trouble, after many weeks of desperate struggle against the inevitable death.

Mr. Watson, who has been a prominent figure in the manufacturing world, was probably the best known and most prominent man in Dixon, during his activities here as president of the various companies that have been engaged in the shoe manufacturing business.

Under F. A. Watson's guidance, shoe concerns here have had many years of prosperity and Dixon was at one time known widely as a shoe manufacturing center and the growth and prosperity of the city is due in a great measure to the impetus it received while our shoe factories were flourishing.

Funeral Monday

Mr. Watson's funeral will be held Monday afternoon at 2 o'clock from St. Luke's Episcopal church. Rev. A. B. Whitcombe will have charge of the ceremonies and interment will take place in Oakwood. The body will be brought to Dixon on the noon train Monday and will be taken directly to the church.

The arrangements and details for the funeral were planned by Mr. Watson himself, when he knew that the end was near, and his action is indicative of the strong mind, dauntless courage, masterful self control and forethought, and the cool, calm acceptance of the inevitable, that made him what he was.

Obituary

Frederick Augustus Watson was born October 23d, 1854, in the old home that still stands on the corner of Second Street and Madison Avenue. He was the son of Major Jas. A. Watson and Susanna Watson. His father was killed in Rock River in 1893, when a craft, loaded with men, who were attempting to fill a break in the dam at Dixon, was snatched up and overturned by the raging current in the break. Two others were drowned at the same time.

Mr. Watson's mother survived her husband only three or four years.

Fred Watson started in at hard work when a very young boy, and worked up from the very bottom. He was eight years old when his father and three brothers went off to war and left him the "man" of the family, when times were sufficiently hard to try the heart of a full grown man. The little boy shouldered his burden manfully and came through the struggle with credit.

At the age of 14 he took a job as news agent of the Dixon passenger, which ran between Dixon and Chicago on the Northwestern, in the times when it took five hours to make the run. Later he was given the position of water boy on the "Through Line" from Chicago to Omaha.

The pay was small and the work hard, but the young boy learned the secret of independence and management and it equipped him for the strenuous battle in the business world which was to come in later years.

He next went to St. Joseph, Mich., where he went to work for a brother-in-law as a clerk in his store. After a short time there he was engaged by the Dempster Glove company as commercial traveler, and after a few years on the road for that concern Mr. Watson took his first position in

the shoe business, when he became associated with the C. M. Henderson Shoe company of Chicago as a commercial traveler.

C. M. Henderson soon recognized ability in the young man who was on the road selling his goods, and made him manager of the Western Penitentiary Shoe manufacturing shop of Pennsylvania at Allegheny, where the Henderson company had a contract for the manufacture of shoes, and Mr. Watson supervised the making of shoes by the state prisoners.

Mr. Watson became so valuable to the firm that he was taken into partnership and when the Henderson company founded a shoe manufacturing plant in Dixon Mr. Watson came to manage the plant.

Upon the death of C. M. Henderson the factory here was purchased, and the company was re-organized and became the Watson-Plummer Shoe company and F. A. Watson and J. P. Plummer engaged in the shoe business for several years, with Mr. Watson as president of the company.

When this company dissolved partnership, Mr. Watson became president of the Red School House Shoe company and the Dixon Shoe company, of which concern he was president when he died.

His health and financial reverses in the latter years of his life were a great handicap and the last company which was organized here never completed its plans to the actual manufacture of shoes. If Mr. Watson had not been afflicted with such poor health, the factory would undoubtedly be running now.

Mr. Watson was for years president of the Shoe and Leather association, a national organization.

Mr. Watson was first married to Della L. Fairman of St. Joseph, Mich., and to this union was born one daughter, Marian, who died at the age of eight years. Della Fairman Watson passed away March 15, 1910. She was a charming woman, beloved by all who knew her.

About a year ago announcements were received in Dixon of the marriage of F. A. Watson to Mrs. Mary Frizelle of Chicago.

Mr. Watson is survived by three half-sisters, Mrs. Geo. W. Millen, of Rome, Italy; Mrs. Charles Sweet, St. Joseph, Mich., and Mrs. Katherine Payne of New York, and a half-brother, Geo. C. Loveland of Dixon, and a full brother, S. N. Watson, also of Dixon.

He was a member of the Dixon lodge of Elks. That fraternity will attend the funeral and furnish the music at the ceremonies.

Frederick Watson was a brilliant, brainy, capable business man and a delightful, jovial, entertaining companion. His associates in business say of him that he had a most wonderful, accurate, quick, trustworthy and resourceful business mind. Those who knew Fred Watson well loved him greatly. He was one of the truly big men of Dixon and his passing to the great beyond brings grief to his many friends here and elsewhere.

Telephonic communication with the Watson home in Chicago today resulted in learning the names of the three Chicago men who will act as pall bearers at the funeral Monday. They are: Charles W. Toon, Frank Belz and Jesse Haber. There will also be three Dixon men as pall bearers, but it is impossible to learn their names today.

OUR BRAVE CAPTAIN.

A song that Marie Dressler made famous in her production of Judy Forgot, is published this evening by the Telegraph on page 3. This song is said to be one of the most clever Miss Dressler ever sang and vocalists and instrumentalists will enjoy trying it.

George A. Burchell of Erie was in Dixon today.

COMPLAIN OF GAS PRESSURE

A resident of Loveland addition called the Telegraph this morning to complain of the poor gas pressure that residents of that section of the city are suffering.

This gentleman said that many times the gas was so low that it was impossible to boil water, and the consumers up that way feel that something should be done to relieve the situation.

AMBOY MAY BE DIVISION POINT

LEE COUNTY TOWN WOULD BE GREATLY BENEFITED BY THE CHANGE.

MAKE TRIAL RUN TODAY

If Trial is Successful I. C. Officials Contemplate Making Amboy the Southern Terminal of Dubuque-Freeport Run.

If trials which were instituted today by the Illinois Central railroad prove satisfactory, a rearrangement of division points on the railroad will result, and Amboy will come into much greater prominence because of these changes.

This afternoon a heavy freight train is making the trial run from Dubuque, Ia., to Amboy, and if it is found that the run can be made more successfully than from Freeport to Amboy and return, it will mean that henceforth Amboy will be made the southern terminal of a division extending through Freeport to Dubuque.

Back in the 80's, in fact until 1888 such an arrangement was in force on the Central, changes in the division points making it necessary to rearrange division points here. The operating department has been contemplating this change for some time, and if the trial run which was made today shows the new division to be practical the change will be made a permanent one.

Such an arrangement would mean much to Amboy and would give that city an impetus such as it has not enjoyed for some time. It would mean that many additional freight crews, engine men, etc., would make that city their home and would greatly increase the expenditures of railroad money there.

DIXON BROWNS IN OPENER ON SUNDAY

NEWLY ORGANIZED TEAM PLAYS MORRISON INDEPENDENTS HERE.

The newly organized Dixon Browns will make their first bow to the fans of the city tomorrow afternoon at 2:45 o'clock at Athletic park when they will meet the fast Morrison Independents. The lineup of the Dixon team shows four fast men from Freeport will assist, Kalem or Cavanaugh behind the bat, Ruthe on third, Geeger on short and Dalton in center. The Browns will line up as follows:

Kalem or Cavanaugh, c

PETER EISENBERG OF ASHTON DIES

A RESPECTED CITIZEN OF LEE COUNTY FOR 60 YEARS PASSES AWAY.

Ashton, Aug. 9.—Special to Telegraph—Peter Eisenberg of this city passed away yesterday at 4 p. m. at the age of 82 years. He had been a resident of Lee county for 60 years, living in Ashton and Bradford township. He was well and favorably known over the county and highly respected. He leaves three sons, John and Adam of Ashton and Henry of DeKalb, and four daughters, Mrs. Nate Burhenn, Mrs. Joe Mail, Mrs. John Vaupel and Mrs. John Erhardt.

The funeral will be held Monday at 10 a. m. from the home and 10:30 from the church. Rev. Walters to have charge of the services. Interment will be in Bradford cemetery.

At one time Mr. Eisenberg was engaged in the mercantile business in Ashton with his son.

'EATS' COMMITTEE FOR ELK CLAM BAKE

WM. FORD WILL BE CHIEF CHEF AND WILL HAVE ABLE ASSISTANTS.

The "eats" committee for the Elks' big clam bake, which will be held Labor day and which beyond all doubt will be the biggest in the history of the lodge, has been appointed and the various ones in charge of the different departments are now busy on their preparations for the affair.

William G. Ford will be in general charge of all the eatables, with the following assistants: Clam Chowder—Sam Bacharach and G. G. Messer.

COUPLE WALK FROM KY. TO FRISCO

MR. AND MRS. JOHN HARRIS SELECT STRENUOUS METHOD FOR CURE.

Mr. and Mrs. John W. Harris of Paintsville, Ky., who are walking from their home to San Francisco in hope of ridding themselves of a touch of tuberculosis, were here today on their long trip and their presence created considerable comment. The young people left home July 5, and went to Chicago, their departure from that city being witnessed by a large crowd. They walk between 35 and 45 miles every 24 hours, the greater part of their walking during the hot weather being done at night. They are making their way by selling photographs.

CALLS FOREIGN RELATION COMMITTEE

PRESIDENT WILSON AND COMMITTEE TO DISCUSS MEXICAN SITUATION TONIGHT.

CRISIS EXPECTED ON MONDAY

John Lind Will Not Reach Mexico Until That Date—Situation Felt to be Extremely Delicate.

Washington, D. C., Aug. 9.—Special to Telegraph—President Wilson has called a meeting of the foreign relations committee at the White House for tonight to talk over the Mexican situation. The entire membership of ten democrats and seven republicans will be present.

Ex-Governor John Lind, who has been sent to Mexico as Wilson's special representative, will reach Vera Cruz on the New Hampshire tonight and will arrive in Mexico City, the nation's capital, Monday, when the crisis is expected.

Whether the United States will intervene in Mexico by force of arms will then be decided. The war and navy departments are being operated for the emergency as the situation is felt to be extremely delicate.

PUBLIC BATHING BEACH IS NEEDED

PUBLIC SENTIMENT IN FAVOR OF BUILDING MUNICIPAL BATH HOUSE, FREE TO ALL.

Agitation for a public bathing beach for the free use of all swimmers and under control of the city has been started, and it is very probable that the city council will be asked that over 200 people take advantage of the beach at Assembly park daily, and there is no doubt such an institution free to all and controlled and policed by the city would be most popular.

It is argued that in all large cities where there are the excellent bathing facilities provided by Rock river and which are afforded here, public bath houses are common and are a great comfort to the citizens. It is estimated that over 200 people take advantage of the beach at Assembly park daily, and there is no doubt such an institution free to all and controlled and policed by the city would be most popular.

DRUGGED INTO MARRYING HIM

DEKALB COUNTY GIRL ASKS MARRIAGE ANNULLED—SHE CHARGES FRAUD

Aurora, Aug. 8.—Miss Elsie Hendrickson of DeKalb county, wants her marriage to George A. Young annulled, charging that a fraudulent ceremony was performed in Denver while she was drugged. The case was heard in the Sycamore Circuit court today and a decree will be ordered.

Miss Hendrickson went to Denver several months ago owing to ill health. She had an admirer, George A. Young, who had asked her to marry him many times, she says, but had been consistently refused.

One night, she says, Young took her out to supper, and during the evening she claims she drank something that was drugged. The next thing she knew she woke up in a hotel with Young, who had secured a marriage license and married her while she was unconscious.

The young woman immediately left him.

BIG TEAM HERE A WEEK FROM SUNDAY

The Dixon Stars have arranged for a game for a week from tomorrow which should be one of the best of the season, in that the team to contest them is said to be the strongest aggregation that has visited Dixon this year. The Kirklands, who claim to have defeated the Jake Stahls of Chicago, the Chicago All-Stars, DeKalb and West Chicago have been secured for the game, and the Stars propose to secure a crack box artist to work in the game.

DR. COOK'S BOOKS ARRIVED TODAY

DO NOT FAIL TO SECURE A BEAUTIFULLY ILLUSTRATED AND INSTRUCTIVE NARRATIVE OF A DASH FOR THE POLE.

A shipment of Dr. Frederick A. Cook's book, "My Attainment of the Pole," arrived at this office today and are now available to the general public.

The books may be secured by anyone who will bring a coupon clipped from the Telegraph and 70 cents, which covers cost price to us. The Telegraph asks no advance subscription or other obligation and is selling the books at the cost price for the benefit of the general public, just as we did with the dictionaries recently.

The book is a well written narrative of the thrilling adventures of the polar party on their expedition in search of the pole, which Dr. Cook claims he found, and also contains a part of his controversy with Peary.

Books of travel are usually sold for a high price, and we feel that we have secured quite a bargain for our readers.

Dr. Cook's Book.

Dr. Frederick A. Cook's book, "My Attainment of the Pole," can be secured at the Telegraph office by clipping one coupon from the Telegraph and paying the expense bonus of 70 cents. The book is a thrilling narrative and an instructive story of life in the northland. It is well worth reading.

SOLDIERS AND SAILORS TO HOLD REUNION

COMPLETE PORTION OF STREET PAVING

Foreman Croft of the Gund & Graham paving force yesterday threw open the third block of paving on which work has been completed. Ottawa avenue is now finished from River street to Second street and First street is open to Crawford avenue. The work thus far has been exceptionally fine in every respect, the contractors making an especial effort to make the job as good as possible. They have even sprinkled the street with sand, a requirement not embodied in the specifications.

Tonight the physical culture classes of the Assembly will put on an interesting program of games, drills, marches and races. Secretary Bailey has his boys well drilled. For drills and music Miss Hill has everything in hand to give her part of the entertainment.

Without doubt many people will be out tonight.

Preachers' Quartet.

The Chicago Preachers' Quartet arrived Friday afternoon. These excellent singers will put on a delightful concert this afternoon and will appear again at 7:30 this evening for thirty minutes before the entertainment.

The Chicago pastors who compose the quartet are Faye Arnold Moon, Charles A. Gage, John W. Holland and Charles A. Briggs.

Rev. Gage was at one time pastor of a church in Rock Falls and is well known here.

Concert Was Good.

The Schumann Quintet was about the best in music the Assembly offered this year. The concert last evening was listened to by several thousand people and everybody was delighted with the program of classic selections rendered by this organization of artists.

The last, but by no means least, musical attraction is the Preachers' Quartet, which will sing a full concert Sunday night.

Bible Hour.

Dr. Howard closed the Bible hour class this morning with a splendid talk on "Judgment and Life." This department is closed for the season.

Mission Study Class.

Mrs. D. A. Davey of Chicago closed the mission study work for the season with an interesting talk, summing up the work of the week. She has had splendid success with this part of the Assembly work.

Tonight's Program

The following program will be given by the physical culture classes of the Assembly. Miss Gertrude Ione Hill for the girls and Secretary Bailey for the boys, have arranged the program.

With Supt. and Mrs. Snyder

Misses Cella Howard of Elgin, Harriet Dodson of Indianapolis, Ind., and Miss Myrtle Morrow Snyder are spending the week end with Mr. and Mrs. W. P. Snyder.

Accomplished Vocalist.

Percival Read of Leavenworth, Kas., whose vocal cool Friday afternoon pleased his hearers, will sing again Sunday afternoon. Mr. Read has a rich baritone voice of much power and a very attractive quality. This was Mr. Read's first appearance at Rock River Assembly and he created a fine impression. Mr. Read is a man of undoubted musical ability, and sings in an artistic and convincing style.

Hawley's Visit Here

Mr. and Mrs. George Hawley of Elgin will visit at the home of Mr. and Mrs. Lee Dysart over Sunday.

Geiger-Rogers.

Merle Rogers and Miss Helen Geiger, both of Sterling, were united in marriage at noon today. The ceremony was performed by Rev. Stone. They were unattended and left on the 12:50 train west. Both are popular and well known young people, who will receive the congratulations of many friends.

Elks Will Meet.

B. P. O. E. 779 of Dixon will hold a regular session and social Monday evening of next week.

Ice Cream Social.

Carpenter Reunion.

The annual reunion of the Carpenters was held yesterday at Lowell park and will long be remembered by all present. A long program which was enjoyed by all was given after a dinner such as only the Carpenters can prepare; the pictures of the entire group were taken and the afternoon was spent in fishing, bathing, games and a social time. Those present were: Theodore Carpenter, Mrs. Gill Reynolds and daughter, Miss Pearl and Walter Carpenter of Beatrice, Neb.; Mr. and Mrs. John Carpenter, Freeport; Mr. and Mrs. Brandt Carpenter, Ia.; Mr. and Mrs. M. L. Carpenter and daughter, Chicago; Mr. and Mrs. Lee Carpenter and family, Edith, Inabelle and Harry; Mr. and Mrs. Paul Anderson; Mr. and Mrs. Tom Straw and daughter Lola, Polo; Mr. and Mrs. Miller, Milledgeville; Mr. and Mrs. J. W. Carpenter, Mr. and Mrs. Geo. Schrader and daughter Edna, Mrs. Matt Fausner, Mr. and Mrs. Frank J. Bender and daughter Olive and son Fayne and guest, Joe Crawford, Mrs. Jacobus, Dixon; Jeremiah Carpenter of Beatrice, Neb., who was 93 last June and still hale and hearty, the father

and great great grand-father of the Carpenters, there being five generations, being unable to attend but he hopes to be at the reunion next year. A business meeting was held and officers for next year elected. After a unanimous vote the reunion was planned to be held out west next year on account of the age of Mr. Carpenter. Then a bountiful supper was served and the reunion was ended. The guests departed after declaring the people here royal entertainers and Lowell park and its river one of the most beautiful of places, and hoping it may again be present next year in the golden west.

City In Brief

Misses Rena and Rachael Cunen left today for three weeks' visit with relatives and friends at Peoria, Chenoa and Minonk.

Mrs. Bert McCune is here from Belmont for a short visit with relatives.

Lee Little of Sterling was a Dixon caller today.

Dr. Carl F. Snyder of Freeport, division superintendent of the Illinois Central, made an early morning call at the Dixon hospital today where he performed an operation.

Mr. and Mrs. L. W. Chadwell of Cedar Rapids are here for a few days' visit. Mrs. Chadwell was formerly Miss Susie Robertson.

Charles Goetzberger of Franklin Grove, is still very low and the attending physicians have despaired of saving his life. Mr. Goetzberger is a respected and well known resident of Franklin.

A. J. Lauer and son of Sublette were here today.

O. H. Martin returned from a week's stay at Mudlavia greatly improved in health.

Commissioner M. J. Gannon is confined to his home by illness.

Mr. and Mrs. Will Webber were here from Compton Friday.

A THIRD PAPER HERE

Editor Landers, in the Ogle County Republican, says:— We note by exchanges that Dixon is threatened with another newspaper. Dixon needs another newspaper about as much as a dog needs three tails. Dixon is a town of seven or eight thousand people and now has two good daily papers. Besides, she is surrounded with good newspapers, Sterling, Amboy, Polo, Rochelle and Oregon. It is the fact that when the newspaper man refuses to finance every time some man with an optical delusion happens around, that the town is threatened with seventeen years locusts, grasshoppers, or the establishment of another newspaper, any one of which is a burden upon an already overburdened public, is very foolish.

A reasonable number of banks, churches and newspapers are valuable to the welfare and prosperity of any community, but when a community is overloaded with any or all of the three, then it is to be pitied. It isn't a hard proposition to butt in on a community and secure financial backing for some new enterprise that promises gold, like the pot at the end of the rainbow, but when the enthusiasm begins to wane, expenses high and receipts insufficient, then is when it begins to be a burden on the stockholders and the business men of the city, because when a newspaper gets crimped, the business men are expected to come to the rescue, and if they fail, the next thing is to saddle the county officers. The theory that we must have more newspapers to reflect the various facts that come up in every community, is a delusion and the people who go behind it will never realize this in its fullness until they have had expensive experience.

MOTHER OF DIXON LADY

DIES IN THE WEST

Word has been received here of the death of Mrs. L. T. Mouck at Spokane, Wash., yesterday afternoon. Mrs. Mouck, who was mother of Mrs. Barney Toomey, formerly of this city, had gone to Spokane to visit when death overtook her. Nothing further than the notice of her death was received in the message, consequently the funeral arrangements are not known here.

Dr. R. M. Barber of Fulton, dentist underwent a serious operation at the Dixon hospital today.

LONG HEAVY RAINS FORECAST

S. C. Braganza de la Corralia of Illinois Makes Interesting Predictions.

Port Byron, Ill., Aug. 9.—Five days of heavy rain and resultant disasters, beginning Monday, are predicted by S. C. Braganza de la Corralia, Port Byron, Ill., meteorological expert. In a letter to a Chicago paper the expert, widely known because of his controversy with the United States weather bureau, makes some interesting predictions.

The most important of these, in view of the condition of the crops throughout the country, is the one of five days of rain from August 11 to 16, inclusive. Explosions in coal mines and powder magazines as the result of meteorological conditions and an intense heat wave are also forecast.

SMITH KNOCKS OUT FLYNN

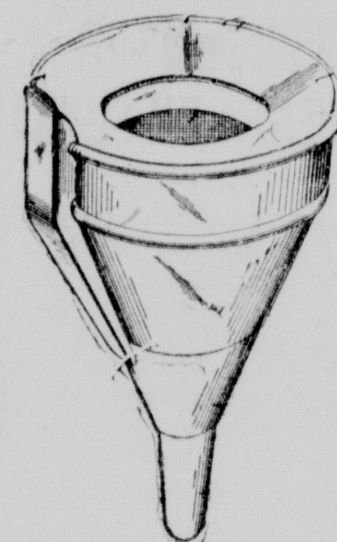

Pueblo Firemen Takes Count in the Fifth at New York.

New York, Aug. 9.—The Gunboat is there! He proved it conclusively last night at Madison Square garden by battering down and knocking out Jim Flynn, the Pueblo fireman, lastly reaped one of the hardest nuts to crack in the heavyweight division. A hurtling right to the jaw put Flynn out in the fifth round of what was scheduled to be a ten-round affair. There never was an instant when Smith appeared to be in distress, although the battle was one of the most fiercely contested between heavyweights since the historic days of the ever discussed old timers.

Ask \$13,400,000 for East River. Washington, Aug. 9.—Improvements in East river at New York to cost \$13,400,000 were recommended to congress by the army board of engineers. The plans had called for \$22,550,000. It is proposed to dredge a 35-foot channel and effect other improvements.

WIDOW ASKS EXPENSE MONEY

Western Woman Files Claim After Nearly Thirty Years in Contested Election Case.

Expense money for a contested election case nearly 30 years old is asked from the house committee on appropriations in a bill introduced by Representative Ferguson of New Mexico. The widow of Tranquillo Luna, whose seat in the Forty-eighth congress was successfully contested by Francisco A. Manzares, is made the proposed beneficiary under the bill, which asks authority to draw \$2,000, the regular expense sum allotted by the rules of the house in all contested seat cases.

Tranquillo Luna was a delegate from the territory of New Mexico. He presented his credentials March 4, 1883, and served until March 5, 1884. Manzares, a Democrat, brought a contest and Luna eventually resigned. No claim for expense money was made at the time. It is usually the case that old claims of this kind are referred to the committee on claims.

Very few election contest claims as old as this one have been filed. One of the oldest seen before the Luna claim was that of the estate of a man named Lee, a negro Republican from a southern state, who contested the seat of a representative named Richardson, more than 30 years ago. The house was Republican and the report of the elections committee favored the colored man. The case attracted wide attention at the time, and came near to seating Lee. The Democrats of the house finally staved off a majority vote.

EXAMINATION

A satisfactory pair of glasses consists of a great deal more than two lenses with a metal mounting. Such a pair of glasses is the result of several kinds of highly specialized skill combined to meet your individual requirements. But for this skill to be of value its work must be based on a careful examination of the eyes. Such an examination you are assured when you come to me for glasses.

CONFIRMED PROOF

RESIDENTS OF DIXON CANNOT DOUBT WHAT HAS BEEN TWICE PROVED

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Dixon who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Dixon kidney sufferers.

J. B. Clark, 722 Highland Ave., Dixon, Ill., says: "I had kidney complaint and backache and the doctors seemed unable to do anything for me. Finally I read of Doan's Kidney Pills and got a supply at Leake Bros. Co.'s Drug Store. This remedy cured me and I have not had any serious trouble since. I consider Doan's Kidney Pills worthy of the highest praise and I am willing to confirm the statement I gave in their favor some years ago."

JUST WEATHER.

"Sir," said the visitor, "it is intolerably hot."

The other man placed one wet hand on the table.

"I beg your pardon," said he swabbing the back of his neck with a wet handkerchief, "it is not. If it were intolerable it couldn't be borne. You are bearing it; I am bearing it. Others are bearing it, too. Ergo, though unpleasant, it is not intolerable."

The visitor wet his lips with his tongue. There was nothing else with which to wet them.

"Let us compromise on stating it is—er—suffocating, then," he suggested.

"Suffocating?" There was no compromise in the office man's tone. "No! If it were suffocating the dead would choke the street outside. Victims would rush there to get some air, because there is more air in our streets than anything else—if we except dust, dirt, profanity, cars, autos, push carts and a few other things like that. Your use of the word 'suffocating' simply indicates you suffer from the American disease of exaggeration. We are never content to be mildly sensational or startling. We must be shriekingly so. Hence we drip superlatives. Cut them out and you will be happier. I have—and look at me."

The visitor looked. "Well," he vol-

unteered, "you may have done so but you don't look cool and happy to me. You look darned hot!"

The man leaned forward and in a hoarse whisper stated:

"I am. But I am writing a Christmas, cold-weather, snuggle-around-the-fire advertisement for the December magazines and I've simply got to keep up the below-zero mental chill."

The visitor shrugged his shoulders.

"One of those snowstorms, this is a dreadful-night-to-be-at-sea-mates advertisements is it? No wonder you don't want to hear hot-weather superlatives. I was going to ask you out to have a nice, long, cold one about so high. But that would never do. They don't serve hot things or eggs now, so—good after. I hope you don't get chilblains—o rgrave 'em to your superlatives and your adjectives."

As he disappeared, the other man wet his lips, with his tongue, of course.

"The trouble with me," he commented, "is—I converse too extensively."

Then he reached for a pencil and the dictionary.

HE MEANT WELL, ANYWAY

Congressman Sends "Union" Trouser Buttons to Constituent Instead of Onion Sets.

Representative Gudger of North Carolina represents that district of the Old North state which takes in the "Sapphire Country." His constituents are practically all mountaineers, and requests from them for favors are probably fewer and more far between than those of any other member of congress. As a result, whenever a favor is requested, Gudger gets busy with a jump, arranging to grant it in the quickest possible time.

But for all his efforts, there was one request which came to him shortly after congress convened in the recent session that hasn't been granted correctly yet. Gudger thought he had granted it all right—but he found out differently. And he hasn't had the nerve to try it again.

Nominally the request was perfectly simple. All the constituent wanted was a few onion buttons to plant in his mountain garden. But either his penmanship was woefully bad, or he was woefully careless, for in the writing he neglected to close the top of the first letter "o" in the word "onion." The result was that it looked like the word "union."

Gudger puzzled over that request for many days. Finally he decided to obey instructions to the letter, and so, marching down town, he bought several boxes of patent fastening "union" trouser buttons, sealed them up, and mailed them.

Five days later he got the following letter from his constituent:

"Mister Gudger: Thank you for them buttons. It's true they ain't what I asked for, and I don't just see how I can eat 'em, but I'm glad to get 'em, just the same. Now, if it ain't too much trouble, I wish you'd go where you got 'em, and see if you kin git me some instructions as to how to plant 'em, so I kin raise some pants to wear 'em on."

Has Many "Trades."

A deluge of applications for appointments to the United States secret service continue to overwhelm Secretary McAdoo, although there are no vacancies. One man, who believes the government needs him in its detective work, sent the secretary a list

of about 150 occupations which he has filled during his lifetime to prove that he was competent to undertake any kind of sleuth work. These were some of his "trades": Stage driver, laborer, "partner" school teacher, proprietor and editor, doctor, rough carpenter, mail carrier, lumber trade, waiter and bartender.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic oxide gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

I Treat Chronic Disease

With My New Neuropathic System of Treatment.

I will be at the Nachusa House from 9 a. m. until 5 p. m. Thursday, August 14.

Dr. Edwin O. Gable, Neuropathic Specialist.

If you suffer come and consult me FREE.

My neuropathic system of treatment means treatment through the nerves and circulation and relieving congestion. All diseased conditions are prolonged by disturbance of the circulation, congestion, pressure on, and weakening of the nerves; pressure on the glands or thickening of the tissues. The neuropathic system of treatment relieves chronic diseased conditions by giving renewed activity to the vital forces in the nerves, renewed circulation, relieving congestion and in this manner, causes absorption of the disease deposits, removing swellings and thickening of the tissues and restoring normal conditions. No organ can remain diseased when the blood is circulating normally through it. This is the principle on which this treatment is founded. No disease should be incurable as long as the tissues of the body are not too badly destroyed. Disease and weakness in any portion of the body is curable up to that stage.

I have had the most marvelous success in giving relief to many cases of all manner of weakness and nervous troubles of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse and fainting spells. I have had wonderful success in treating all curable forms of Kidney troubles, Congestion of the Kidneys, Backache, Clogging up of the Kidneys, Irritation of the Bladder, Catarrh of the Bladder, pain in the Bladder, and all weaknesses connected with these organs. I have had great success in treating Rheumatism, both acute and chronic, cleansing the rheumatic poison from the blood, creating new, healthy conditions so that they are completely relieved. It is very successful in blood diseases, skin troubles such as Eczema, Pimples, etc. It gives immediate relief to Stomach troubles, Dyspepsia, Fermentation, Constipation and Liver troubles, Nervous disease and all forms of chronic disease and weakness of the Eyes, Catarrh and Deafness, Head Noises and Sick Headache.

I have had the most remarkable success in giving relief to many old chronic cases where all other treatments had failed. No matter how long you have suffered or what your disease is or who has pronounced you incurable, I ask you to come to me. I will examine you and tell you frankly whether or not you can be relieved by this new system of treatment. Many people have come to me in our city; said other doctors had pronounced them incurable or that an operation was necessary. They had about given up hope, and have been restored to health by me. I can give you as many private references as you wish of the wonderful results that I am making with this system of treatment. Remember, I accept no case by mail. I must make a complete examination of your case first. I do this for you free of charge on this trip.

WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

FAMILY IS SAVED BY

BABY'S CRIES

Mother Awakened by Infant, Flees With Children From the Burning House.

Aroused from its slumbers at midnight by smoke in the room, a babe in a Lithuanian family at LaSalle awakened other members of the family by its cries and gave them an opportunity to escape from the burning house.

The mother and three children were asleep in the little home when fire started from a mysterious source and ate its way to various parts of the building.

When the mother was awakened by her babe she quickly caught up the little one and shaking the other two children so as to arouse them, she fled with her offspring to a place of safety.

It took but a few moments for the house to become a mass of flames, and in half an hour it was levelled. The fire could be seen for miles in the country.

speaks; he instructs; he wins friends by his sound arguments advanced to support the subject he discusses.

Mrs. Wirick chose wisely when she chose Dr. Hoover to be the speaker for the close of her department. On Friday afternoon it was warm, but the scholar from Carthage college was greeted by a large audience. All remained till the end.

Dr. Hoover, who is a friend of the chautauqua reading course graduated from the course this year and advises his friends to read it.

Mrs. Wirick made a success of her department this year. All her time was devoted to the course. She arranged her program with skill and she imported some of the best talent on the whole program to her department. All of the Round Table meetings were largely attended and much interest manifested. No one deserves more credit for splendid work this year than does the talented woman from Nachusa, Mrs. C. E. Wirick.

Sunday's Program

The Rock River Assembly will close its 26th annual session Sunday evening with a sacred concert by the Chicago Preachers' Quartet. This same organization will sing a prelude at 2 Sunday afternoon before the lecture by Father Edward Graham.

Father Graham

Father Graham is pastor of the Holy Angel's church of Sandusky, and is a speaker of wide reputation. He is scholarly, witty and profound. He is popular with the masses and his lectures appeal alike to cultured and highly educated audiences.

He has refused more engagements than he has been able to fill because of his parish work and for the present season will fill only a limited number of engagements. He is a brilliant speaker has traveled widely and is well informed, has something to say and is in earnest. He is known also as a writer and author. He is broad minded and his lectures will appeal as much to the non-Catholic,

as to the Catholic.

Reason and Religion

Father Graham asks and answers the question, "What is religion," in a way that captivates the attention from beginning to end. Its originality is beyond doubt. Not a mere stringing together of vague generalities and pretty sentiments but a clear, logical statement of the foundation upon which religion sets. No difficulties are avoided. Deep as human thought can go, treats a subject most vital and momentous, yet it is given with such clearness of expression that a child can grasp it and the professional man appreciates it for its enlightened thoroughness by kindly humor, both believers and non-believers, many people have admitted that this lecture has changed the whole current of their thoughts. The lecture "Reason and Religion" is sometimes divided in two, one treating entirely of the Creator and other exclusively the Soul. This gives an opportunity to handle these two subjects at greater length. This division is recommended for chautauquas. Father Graham considers this lecture his most useful and interesting one.

Sunday Morning Service

One of the members of the Chicago Preachers' Quartet will preach the sermon Sunday morning and the quartet will sing.

Mr. Read Will Sing.

Percival Read who sang solo well Friday afternoon, will sing again just before the Father Graham lecture Sunday afternoon.

DECLARE WILSON DISCRIMINATIVE.

The Brockton, Mass., Searchlight says editorially: It does not seem as if any man capable of attaining to the high position of president of the United States could place himself in such a ridiculous position as has President Wilson by his vigorous attacks upon "insidious lobbying."

The lobbyists whom the president was trying to "get" were the American citizens who represented the industries of this country, both in the labor and capital departments, who, in a desperate attempt to save American industries for the manufacturers and the laborers, appeared in Washington, figuratively, on their knees, begging of an American government not to destroy the lives of millions of American people to enrich European capitalists and transfer our own employment to wage-earners across the sea.

These were the men who raised the ire of our patriotic president and caused him to foam with rage because Americans wanted America for themselves first, and made any protest whatever against his paralyzation of our industries.

The president failed to recognize any "insidious lobbying" on the part of those who, for selfish reasons, favored his free trade policy. It makes some difference evidently whose ox is being gored.

When his great exemplar, Grover Cleveland, occupied the position of president of the United States, and when he was engaged in the identical work of destruction that Messrs. Wilson, Underwood & Co. are, it was well and publicly known that the richest body of manufacturers in the world were pulling strings through the agency of the Cobden club, with headquarters in London.

Is there no Cobden club now, or has the Cobden club lost its cunning? How many millions of dollars a year is it worth to England to have free trade with this country? Have these Englishmen so little "gumption" as to neglect a campaign of "insidious lobbying" in Washington at the present time?

HUERTA MAY HALT LANDING OF LIND

Mediator's Arrival Delayed to Give Dictator Chance to Alter Tactics.

U. S. READY FOR THE WORST

Demonstration Is Planned for Sunday on Streets of Mexico City by Students—Bryan Warning Considered a Joke.

Washington, Aug. 9.—John Lind, special representative of President Wilson, was ordered not to land on Mexican soil until Sunday morning, by order of the president. Envoy Lind had expected to leave the battleship New Hampshire at Vera Cruz tonight. If unmolested he will reach Mexico City Sunday night.

By this action the administration gives the Huerta government time to reflect upon its hasty and ill-advised attitude of hostility toward the American mediator for peace in the distracted republic.

If, after this delay, there are any untoward demonstration against Mr. Lind the Washington government holds itself prepared for any crisis which may arise. It is felt here that this was the last concession the United States government is willing to make in the interests of American peace.

Huerta Beards Lion.
It was also felt that Huerta's attitude practically has put a premium upon trouble, for almost any irresponsible person or faction might precipitate a riot or an anti-American demonstration, with far-reaching results.

Secretary Bryan issued a statement declaring the Huerta announcements to be based on "misrepresentations," which he explained to mean "newspaper misrepresentations."

Special message have been sent to Mexico in an effort to convince the Huerta administration that its anti-Lind announcements should be withdrawn. It is now carefully explained that although Mr. Lind is the bearer of President Wilson's plans to end hostilities he will be an adviser only to our embassy there, and that these plans will be presented to the Mexican foreign office not by Mr. Lind but by Charge d'Affaires Nelson O'Shaughnessy, no direct communication to President Huerta being possible. Unless exigencies arise at Vera Cruz the plans of the president will at that time be made public here and in Mexico. Copies will be transmitted to the foreign powers.

The administration feels, since Mrs. Lind accompanies her husband, his mission should be taken by the Mexican government as a special demonstration in the interests of peace.

For Nonpartisan Attitude.
The senate foreign relations committee will consider the situation today and there are possibilities that the senate may embarrass the administration anew next week. President Wilson is said to have changed his mind and now admits the matter must be kept nonpartisan.

Further emphasis was laid by administration officials upon the point that Mr. Lind as adviser to the American embassy would occupy no unprecedented position; that other embassies and legations had their counselors and attaches. The inference that he would directly interfere in Mexican politics, which it appears had been spread throughout Mexico, was declared without justification. All his acts, it was said by them, would be in accord with the proprieties of the situation; all his dealings with the Huerta government would be through the charge d'affaires of the American embassy at Mexico City, and in all circumstances Mr. Lind would act as the mouthpiece of the Washington administration to any one who sought to obtain the views of President Wilson and Secretary Bryan on the situation generally.

The warning sent indirectly by Secretary Bryan to President Huerta not to believe reports of the sensational press is taken as a joke.

What promises to be a gigantic demonstration of popular approval of the attitude taken by President Huerta regarding the coming of Mr. Lind has been planned by the student element, led by instructors, for next Sunday. The demonstration, it is said, will not assume an anti-American character.

RAY'S MOTION IS DEFEATED

Court Denies Major on Order Restraining War Secretary.

Washington, Aug. 9.—Maj. Beecher B. Ray of the quartermaster's corps, stationed at Chicago, suffered another defeat here when Justice Barnard of the supreme court of the District of Columbia denied his motion for an order prohibiting the secretary of war from certifying to the president the name of any other than his for promotion to the grade of lieutenant colonel. An appeal was immediately taken by Major Ray's counsel, and the announcement was made that the case will be carried, if necessary, to the Supreme court of the United States.

NATION SUFFERS BIG CORN LOSS

300,000,000 Bushel Decrease Is United States Expert's Estimate.

KANSAS IS HIT THE HARDEST

Figures Given by the Government Show That Yield Will Be 2,672,000,000 Bushels—Hot Winds Are Blamed.

Washington, Aug. 9.—A loss of 300,000,000 bushels of corn, the nation's greatest farm crop, has resulted from the great damage wrought by drought and other conditions since July 1, the government's agricultural experts estimated in their August crop report. A total production of 2,672,000,000 bushels of corn was predicted. This is 452,000,000 bushels less than last year's crop.

The government crop report given out from Washington was one of the most sensational that the country has seen. It reduced the estimated yield of corn 300,000,000 bushels from the July figures to 2,672,000,000 bushels, or 452,000,000 bushels less than last year's harvest.

Kansas and Oklahoma have been hit harder than any other states, while their prospects earlier in the year were regarded as excellent, but they have suffered practically a crop failure except in a few spots in eastern Kansas and in northern Oklahoma. The official returns show a loss of 98,000,000 bushels in Kansas and 52,000,000 bushels in Nebraska. There is a reduction of 246,000,000 bushels on practically 50 per cent. of the corn acreage of the country, which includes the seven states that raise the nation's commercial crop.

Kansas, Oklahoma and Nebraska have 19 per cent. of the country's acreage, and their combined losses are 218,000,000 bushels. The losses are the worst since 1901, when Kansas raised only 61,000,000 bushels. In 1894 drought made a crop failure in the states west of the Mississippi river and the country had a crop of only 1,212,000,000 bushels.

Winter Wheat May Help.
A record winter wheat crop will help to lighten the losses made by corn but as the country consumes nearly 3,000,000,000 bushels annually it cannot completely make up for the deficit in the greatest feeding crop, notwithstanding the fact that corn is selling higher than wheat in the market west of the Missouri river.

The winter wheat crop is 511,000,000 bushels, against a previous record of 493,000,000 bushels in 1906. The spring wheat crop increased 15,000,000 bushels in July and the three northwestern states have 174,000,000 bushels, which is almost an average. The total wheat crop of the country of 744,000,000 bushels is only 4,000,000 bushels below the record of 1901 and 14,000,000 bushels more than last year's yield.

Despite the immense loss sustained by the corn crop, the aggregate yield of the five principal grains is the third largest on record, being 4,647,000,000 bushels. As compared with last year's bumper returns, there is a loss of 886,000,000 bushels, or 16.1 per cent., but as compared with 1911 the gain is 180,000,000 bushels, or 4.1 per cent.

Owing to the large reserves carried over from last year of corn, oats, hay and rough feeds, the losses in this year's crop may be partially offset.

A drop of 40,000,000 bushels was sustained by Illinois during July, while Iowa dropped 11,000,000 bushels. Nebraska and Missouri suffered heavy losses, the former being off 52,000,000 bushels during the month, and Missouri declined 37,000,000 bushels. Ohio and Indiana fairly maintained their prospects for the month. Comparisons by states follow:

State.	Estimate Aug. 1, 1913.	Final 1912.
Ohio	156,600,000	174,410,000
Indiana	178,300,000	199,354,000
Illinois	322,900,000	426,239,000
Iowa	338,200,000	432,021,000
Nebraska	168,300,000	182,616,000
Kansas	162,300,000	174,225,000
Missouri	189,000,000	243,904,000
Totals, bu.	1,417,600,000	1,822,860,000
U. S. total, bu.	2,672,000,000	3,124,746,000

Record Winter Wheat Yield.

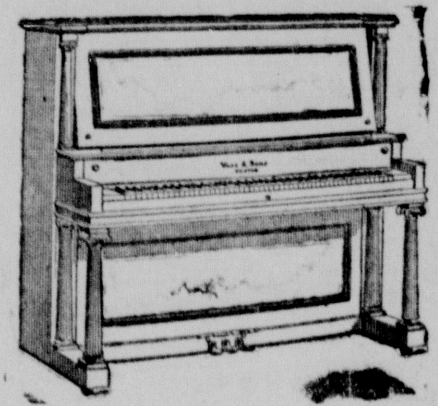

A record crop of winter wheat has been harvested, the aggregate being 510,519,000 bushels, an excess of 111,000,000 bushels over last year's final returns and 9,000,000 bushels larger than the bumper crop of 1906.

Hay and Potatoes Short.

A heavy loss was shown in the hay and white potato crops of the country, the condition of the former being lowered almost ten points last month, but the indicated crop of 64,000,000 tons is only 9,000,000 tons less than the bumper returns of last year, and 9,000,000 more tons than the short crop of 1911. The white potato crop of 239,000,000 bushels is 82,000,000 bushels less than last year's final returns, but 45,000,000 bushels in excess of 1911. With the exception of rice, all minor crops are less than last year, but generally in excess of 1911.

Strike Brings Martial Law.

Barcelona, Spain, Aug. 9.—The Confederation of Labor here declared a general strike. The government in response proclaimed martial law in the city and took extensive military precautions. Many of the labor leaders were arrested in the course of the night.

COAT SUIT OF TAN EPONGE

Both in Cut and Materials Particularly Effective for the Young Girl's Wear.

A particularly becoming coat suit of eponge for a young girl is offered here as a suggestion. Tan eponge was used for the suit with collar and turned-back cuff of the same material in white. A broad, stiffened belt of black velvet holds the blouse fullness of the coat. The blouse closes in slightly surplus effect above the belt, while the lower coat portion shows the cutaway influence. Buttons of black velvet with attendant buttonholes are placed just outside the shaped collar of white. The skirt is plain save for three deep tucks half way between knee and hem.

"TUB" MATERIALS IN PLENTY

Among the Many Offered There is Ample Opportunity for Selection of Pretty Frocks.

The tub frock has included washable voile in its materials this summer, and that dear old fabric has arisen from its ashes more delightfully useful and ornamental than ever, and makes the prettiest frocks for those who want something fairly thin, washable, that will wear a decent time, and which will look nice to the end. The washing crepons, among other popular materials, always look smart if well cut and worn, while, in my opinion, the most useful frock of all is of the handkerchief type, plain cambric or batiste with little hemstitched colored edges. It is extraordinary how adaptable this type of frock is; simplicity being the order, it can be worn with the most country sort of hat, or by the addition of a not too elaborate but smart sash and a chapeau of a more afternoon description (still holding to the simple note), and the possible finish of a frilled collar and elbow cuffs, or a set in old embroidered net or muslin, it can be pressed into service for a far more important occasion. All the foregoing is to the address of the young person, and not to that of her mother—or even grandmother!—these fair ladies having a way of taking to themselves advice to the ingenué as a matter of course nowadays unless firmly told they must not!—London Queen.

HANDS NEED NOT BE ROUGH

Even the Busiest of Housewives Can Find Time for This Simple Beautifying Process.

Here are some useful hints, which, if followed, will be found to produce excellent results in keeping the hands in good condition. The last thing at night, wash the hands with a good soap in not too hot water, and after they have been thoroughly cleansed (a soft nail-brush being permissible as long as the skin is not injured), in clean warm water to which a few drops of tincture of benzoin has been added.

Dry them on a soft towel and rub them well with cocoa butter, allowing it to sink into the skin. Massage the back of each hand and the fingers with the fingers of the other hand, rubbing them with the tips in a circular movement, and gradually working down to the nails.

Now rub over with olive oil, and put on a pair of old chamol leather gloves, which, if kept on all night, will make the skin soft, as well as nice and white.

In cleaning the nails never use a steel instrument or the points of the scissors. Stains and dirt can be removed by rolling a tiny wad of cotton-wool on the end of an orange stick and moistening it with diluted peroxide of hydrogen.

DESIGN FOR LITTLE SISTER

Silk and Cotton Combined in Pretty Costume That Has Some Really New Features.

Pale blue silk and cotton material has been made up most charmingly for a little girl in this instance. The sleeves are trimmed with narrow plaited frills of the material and a black velvet sash passes under a strap buttoned down with black velvet buttons. There is a round yoke edged with the plaited frilling and over this little yoke lies a round collar of machine embroidery which fastens at the back. Pale blue silk stockings and buttoned strap slippers of white kid complete the dainty costume.

excellent results in keeping the hands in good condition. The last thing at night, wash the hands with a good soap in not too hot water, and after they have been thoroughly cleansed (a soft nail-brush being permissible as long as the skin is not injured), in clean warm water to which a few drops of tincture of benzoin has been added.

Dry them on a soft towel and rub them well with cocoa butter, allowing it to sink into the skin. Massage the back of each hand and the fingers with the fingers of the other hand, rubbing them with the tips in a circular movement, and gradually working down to the nails.

Now rub over with olive oil, and put on a pair of old chamol leather gloves, which, if kept on all night, will make the skin soft, as well as nice and white.

In cleaning the nails never use a steel instrument or the points of the scissors. Stains and dirt can be removed by rolling a tiny wad of cotton-wool on the end of an orange stick and moistening it with diluted peroxide of hydrogen.

FAST MILKING BY MACHINES

Problem is Long Way From Being Satisfactorily Solved—High Class of Help is Necessary.

The problem of milking by means of machines is still a long way from being solved, but we are much nearer the goal than five years ago, or even a year ago, says the Farm and Fireside.

The New York experiment station has announced the result of a milking machine experiment which covered a period of four years. The experiments show that, including the time required to get the machines ready and to wash them after milking, cows can be milked by machine in 3.86 minutes to the cow, as compared with seven minutes for hand milking. A higher class of help is, however, necessary to milk by machinery.

For dairies of less than fifteen cows the use of machines was considered unprofitable and not to be recommended.

The hundreds of applications filed in the United States patent office show the interest in machine milking. Present day developments indicate that best results are obtained by the intermittent suction principle, but we look for the time when milking machines will be cheaper and simpler. The cream separator of today is about one-fourth as large as one of equal capacity twenty years ago. A similar simplification may be true with milking machines.

SEVERAL INJURED IN WRECK

Big Four Passenger Crashes Into Train of Empty.

Fergus Falls, Minn., Aug. 9.—Screams attracted Mrs. Phoebe Sterns to her nine-year-old granddaughter, whose clothing had caught fire from stove sparks. She saved the girl, but was burned to death.

MORE CASH PLEDGED

McADOO OFFERS \$150,000,000 TO MOVE CROPS.

Thirty-One Bankers Consult Treasurer—Money Measure Is Discussed.

Washington, Aug. 9.—The \$50,000,000 of federal funds about to be deposited in the national banks of the west and south to assist in moving the crops will be increased to \$150,000,000, if necessary. It is the desire of the government to mobilize all the needed cash from the public treasury in the agricultural sections of the country to avert money stringency. This was told to bankers who held a conference here.

Among the bankers present at the conference with Secretary McAdoo were George M. Reynolds and W. T. Fenton, representing the Chicago Clearing House association.

Mr. Reynolds proposed that the government should select ten cities and distribute \$300,000 among the national banks in those cities, ten more among which \$400,000 would be distributed, and so on until the needs for crop moving were met, the banks in the two central reserve cities of Chicago and St. Louis being allotted \$4,000,000 each. This plan meets with favor by the department. Mr. Reynolds and Mr. Fenton urged that a total of \$50,000,000 was enough as extra crop deposits.

Senator Owen was present at the conference and features of the Owen-Glass currency bill were discussed. There were 31 bankers at the meeting. Most of them urged that the federal reserve board be deprived of all powers of initiative, lodging that function with the proposed advisory board, composed of bankers.

Strong criticism was made of the reserve features of the bill.

WOMEN CROWD SLAVE TRIAL

Hear Testimony in Case Against Maury Diggs Under Mann Act at San Francisco.

San Francisco, Aug. 9.—Women crowded the federal courtroom to hear testimony in the government's case against Maury Diggs for alleged violation of the Mann act.

When court resumes the hearing Tuesday Marsha Warrington and Lola Norris will be called to testify. The government will attempt, it is said, to show by the stories of the two women, that the interstate trip with Diggs and Caminetti was made because the women were frightened by threats and lured by promises of marriage after the defendants should obtain divorces.

Attorneys for the defense produced testimony in an effort to show that the girls had not been depressed while at Reno, thus attacking the threat charge.

TARIFF IS IMPERILED

Death of Senator Johnston Causes Scare.

Alabama Governor Says He Will Order Special Election to Fill the Vacancy.

Washington, Aug. 9.—Pneumonia has caused the death of Senator Joseph Johnston of Alabama at the age of seventy. His death precipitated an interesting question under the amendment to the constitution providing for the direct election of United States senators.

With the death narrowing the Democratic majority in the senate to one vote on the sugar schedule, the crucial test in the tariff bill, it is regarded of the greatest importance that the vacancy be filled as soon as possible.

Democratic senate leaders insist that the forty-eight votes they have will stand against any Republican amendments, but no one expects now the bill will pass before September 15.

Senator Johnston had not attended sessions of the senate for a week. Until a short time before his death it was not believed that his illness was critical. Until stricken he had been active in the senate, of which he had been a member since 1907. He served in the Confederate army throughout the Civil war and was governor of Alabama two terms.

Both senate and house adjourned through respect for the memory of the deceased senator. Mr. Overman addressing the senate, said he would ask for a public funeral, but Senator Johnston's family had requested that no such action be taken, so he deferred to their wishes.

Montgomery, Ala., Aug. 9.—Governor O'Neal issued the following:

"I expect to order a special election at once to fill the vacancy in the United States senate caused by the death of Senator Johnston. Conditions at Washington might make it necessary to call an extra session of the legislature to fill the vacancy at once."

Attorney General McReynolds advised Governor O'Neal by telegraph that the governor was within his rights in ordering a special election.

MULHALL ON STAND MONDAY

Senate and House Lobby Bodies to Resume Next Week.

Washington, Aug. 9.—The two lobby investigations in congress will be resumed Monday. When the senate committee ceased work James A. Emery, counsel for the National Association of Manufacturers, was still on the stand. Martin M. Mulhall probably will take the stand before the house committee Monday.

In his testimony of the day Mr. Emery said James W. Van Cleave, a leader in the association of manufacturers, had a large part in steps that led to the organization of the National Tariff Commission association. He added that this association employed former Representative James E. Watson of Indiana. Senator Reed developed that a majority of the members of the executive committee of the tariff commission association were also members of a tariff committee of the association of manufacturers.

Seek Nobleman With Warrant.
San Francisco, Aug. 9.—With a warrant charging white slavery in their possession, United States deputy marshals are closing in on Prince Stanislaus Sulkowski, the Austrian nobleman, who is thought to be at Glenbrook, a resort on the Nevada side of Lake Tahoe, with his bride of ten days, the former Marie Louise Freese, a Los Angeles society girl.
